Johnny Brenna / Sigbjørn Mostue

## *Operation Hades*

**A thrilling and action packed crime!** *Operation Hades* is the fourth book in the series about police detectives Axel Th. Munthe and Tobben at the Oslo Plicedepartment for special operations.

The family of undercover cop Axel Th. Munthe's colleague Tobben is attacked. Some young people from a new, militant animal rights organization are found brutally harmed. It turns out that we are facing an international criminal organization without any scruples, and whose brutal conduct will show that they will stop at nothing to achieve their goal. If they succeed, the country will never be the same.

"It does not lack action nor violence, this novel, that is the duos best so far. The writers have done well through all their four books about Axel and Tobben. As a read it flows well and the book can be hard to put down. Especially since it is action packed from beginning to end."
