## *When Fred Lost his Head*

When Ulrik goes to his best friend's home to have some fun, he gets the shock of his life. Fred seems completely different from normal. It's as if he's a head shorter. Ulrik takes a closer look: Fred has two legs. His upper body is just the right size and he has fine arms. But up top, midway between his shoulders it's completely empty. Fred's head is simply missing!  
Is it possible?!

The books in Svingen's Mad World deal with everything that is crazy and funny: stupid teachers, impossible bikes, insane trips to the south – and scallywags in general
