My Father's Five Bathrooms

A father builds five bathrooms. A son lies to his father. A grandfather runs away from the check. A family plays out its rituals. A man discovers, in the days following his death, where his journey continues. *My Father's Five Bathrooms* is a dark and witty collection of stories, containing life-lies and words of truth, mother fixations and patricides, serious talks and playfulness. When humans encounter resistance, their reactions take the most diverse and absurd forms.
