It has to be done
In the best sense

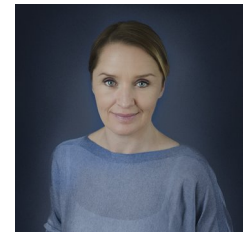

Benedicte Meyer Kroneberg

Where it burns

B. lives in Singapore and works at a shelter for women who have fled from their employer. They have arrived in the country looking for a better life, but the working conditions are demanding, and for many, life has become a nightmare. We follow B. over the course of a dramatic day, both for herself and for the women, balancing precariously between safety and danger. An intense depiction of happiness and misfortune. *Where It Burns* is a disturbing novel about modern slavery and personal responsibility.

Benedicte Meyer Kroneberg

Benedicte Meyer Kroneberg (1972–) was born in Oslo. She graduated from the Norwegian University of Science and Technology with a degree in Nordic literature.
