Terje Dragseth

Bella blu *A Space handbook*

Bella Blu: A Space Handbook is something as rare as a collection of sci-fi poetry – a voice from the future. In this work, Terje Dragseth explores a lyrical language that can encompass knowledge about the world from the natural sciences.

‘This volume of epic poetry breaks all the constraints that you usually associate with the genre ... Bella Blu is an open text and the reader is free to wander, enter and leave.’
