The Big Book of Fusion Beads

Fusion beads at home, in kindergarten, at school, after school! All Norway has gone mad for fusion beads! The big question is always: "What can we create with them?"

Look no further for the answer! In this book you will find hundreds of fusion bead patterns. Everything from animals and fairy tale characters to cars, skeletons and sumptuous cakes. You'll also get a ton of ideas for ways to use your bead creations. Did you know, for instance, that you can make all your Christmas tree decorations yourself out of fusion beads?

All you need is a pegboard, beads, baking paper and an iron, and you can start creating for hours on end. It's fun for the whole family!
