People I Remember

People I Remember consists of a series of portraits of people who play supporting roles in the life of a man who is himself a supporting role. The I of the novel recalls people who in some way or other have taken part in his life, either as ex-girlfriends, friends, family, teachers, fellow soldiers, colleagues or completely random persons. A keen capacity for observation and a language full of wit and energy characterize the portraits. Together they make up important parts of the story of a life.

Rough comedy, resignation and joie-de-vivre interchange in texts that never seem clichéd [...] Whose voices do we listen to, whom do we observe? The narrator's willingness to listen to and see other people adds a sense of seriousness to these odes to the people that pass us by.
