The Planet Rescue Club

In *The Planet Rescue Club* is an ambitious suspense series about the environment and climate change for children (6–9 years). Here we meet Vanja, Sivert and Mo, who live in a small village in Western Norway. But mysterious things can happen even in a small place.

In the first book, *The Black Swans*, a boat crashes into the quay outside the factory. Vanja, Sivert and Mo discover an oil spill in the fjord and the white swans are now covered with oil. Does the oil come from the boat or is somebody intentionally polluting the fjord? Can it be the wealthy factory owner who is dumping the oil? Or is his mysterious assistant Luke responsible? When the adults don't believe what the children tell them, «The Planet Rescue Club» must take matters into their own hands.

In the second book, *The Cabin that Disappeared* we are on the farm where Vanja lives and the animals have just been let out to graze. But then many of them get sick. At the same time, something is going on at the empty cabin in the forest, where Vanja and Sivert have always played. One day it is torn down and the refuse is littered throughout the countryside. Who is tearing down old cabins and building new? And who is dumping the waste that is hurting the animals?

Illustrated by Jens Kristensen.
