Wild Things *About Animals, Nature and Such*

Wild Stuff is a fantastic new nature book from the dynamic duo, Ole Mathismoen and Jenny Jordahl. In a fun and easy to understand way they show us a world worth fighting for.

The book collects several current full-page comic strips from *Aftenposten Junior*, this time featuring strips with animal and nature themes – and even more humor. In addition, you will find a lot of new and exciting factual material, new series and fantastic new multi-image spreads of “seek and find” where you will want to embark on a journey of discovery – again and again.

This is another sequel to the Brage Award nominated *Green Stuff – Nature and environment and things*.
