Knut Nærum

The Hearse

It is Year 81 in a new era. Humans have built new cities. The tallest of all is Utopolis – a place with little space and insatiable energy needs. Where does the energy come from? What becomes of the dead? And what goes on out in the shantytowns? *The Hearse* is an intricate, exciting graphic novel about people seeking answers and authorities who treat the populace like idiots – all conveyed in Karstein Volle's unique drawing style.
