Helene Arnesen

Fabel Knitwear Volume I *34 romantic patterns for Women*

In this book you get 34 romantic, feminine and timeless knitting patterns designed by Helene Arnesen. All original patterns are ideal for the modern woman, mixing both practicality and vintage elegance, as she is often inspired by historical styles and silhouettes for her designs.

As a trained costume designer, she has a love for rich, historical details, yet often combines them with simple silhouettes and techniques.

The patterns are great for every knitter ranging from beginners to advanced. There's simple stockinette pullovers and intricate lace blouses – something for every skill level.

All techniques used have QR codes that take you to a video tutorial, making it even easier.

The patterns have great adaptability, letting you adjust the garment for perfect fit. Thus, you get the best of both worlds: historical elegance and modern practicality!

All patterns come in sizes XS - 3XL, and can be knit in a variety of yarns.
