The Storm is Coming

Will Sam survive the storm?

Gørja seems to be a completely ordinary place, with a school, a shop and a kiosk. But there are also secrets in Gørja that the adults cannot – or will not – explain. There have been two child disappearances from Gørja, and both times a storm raged through the streets and the forest, and across the lake and the sky. Now a new storm is brewing – and Sam's family has only just moved here.

A wild, exciting and highly original story from Julia Kahrs.
