Tommy Skoglund

The Dilogy II

In this second volume, the self-chosen mute son's deceased mother advocates that he should "say it as it is", as she puts it, in Danish. And he does, despite the fact that he is against graveness. Necessarily to curse on Christianity.

Tommy Skoglund

Tommy Skoglund (b. 1982) debuted in 2009 with the prose poem-collection *Waking up as Part of Nature*: "Impressive. Skoglund stands out strongly with a collection of prose poems that starts where life ends. With each new reading, the admiration for the author's distinctive talent increases, where the crystal clear and the irrational meet in concrete descriptions and paradoxical formulations" (VG, 5/6). In 2014 he debuted as a novelist with *Silent Rebellion*, the story of a self-chosen mute antihero, for which he was awarded a two-year-stipend from Arts Council Norway, and The Municipality Prize. In 2018 the novel was translated into Danish. In 2020, the first book of the metafictional antinovel-cycle, *The Dilogy*, was published.
