Cecilie Hellestveit

## *Disquiet on the Eastern Front* *The war that transforms Europe*

Russia's war of aggression against Ukraine in 2022 is a monumental event that has brought the post-war era in Europe to an end. Cecilie Hellestveit's book deals with the war and the economic countermeasures to weaken and deter Russia, and sheds light on how this will change Europe beyond recognition. She takes us on a geopolitical tour far beyond Ukraine, but with Europe as the starting point and end station. How does the war change Europe beyond recognition?

*Disquiet on the Eastern Front* explains how and why Putins war against Ukraine will change Europe for ever.
