The dark elf - Alone *Book 1*

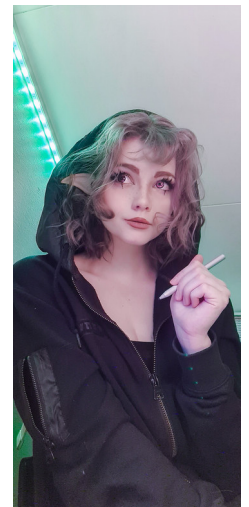

New epic manga for young adults. A visceral tale about not belonging.

All the dark elves have been exterminated except a little boy who grows up among white elves. His name is Caim. Caim is destined for a difficult life after the great war between the elves. Almost everybody hates him and wishes him dead. But one day his teacher tells him about a place called Joker where everybody can live in peace, regardless of who they are.

Joker becomes the place of Caim's dreams. It comes as a total surprise when a boy at school befriends him, a boy who doesn't seem to mind Caim's darker skin. But will their friendship endure until they reach the fabled place Joker?

Helen Kaldheim

Manga creator Helen Kaldheim (born in 1995) was raised in Odda, Norway but now resides in Oslo, Norway. Today, she makes a living as a lecturer, cosplayer, and manga artist. With her book series, she aims to contribute to spread manga among the youth in Norway.
