Noor and the Miniature

Original new novel from storytelling talent Julia Kahrs!

On just another day, Noor discovers something pretty unusual in the cellar: a miniature version of herself! Why on earth has Noor got a miniature?

But perhaps this is precisely what she needs, because on top of her annoying classmates and huge amounts of homework, Noor has managed to sign up for the school's Christmas show – not that she has a clue what she's going to perform. And when circumstances surrounding the Christmas show turn unexpectedly shady and dangerous, having a sneaky miniature on your side turns out to be a good thing.
