#Naked

Alarmingly relevant about love, sex and social media.

#Naked is about 16-year-old Thea who is looking for a boy for sex. A one-night stand will do, preferably with someone who is good at it, so that she can cross off the last item on her to-do list. *#Naked* is also about 17-year-old Amund, who has acquired the nickname Don Juan, and seems like the perfect candidate for Thea.

At one of the coolest parties of the year, Thea and Amund sneak off. Neither of them notices someone following them, filming everything. Not until next day, when a video goes viral among the kids at school, and Amund starts to receive threats.

#Naked is a strong and direct YA novel about honesty and vulnerability, sex and social media, and about taking back control when everyone is watching
