Lars Fiske

RECEIVE!

RECEIVE! plays with the autobiography, as Fiske in short chapters depicts the child, the boy, the youngster, the reader and the character Lars Fiske (the cartoonist to be).

With widely different storytelling techniques and striking graphic expressions, Fiske offers the reader several formative and inspiring moments he has had the pleasure of receiving.

Lars Fiske has published several innovative and award-winning comics and with RECEIVE! he takes the comics medium several steps further.

an unusual work that clearly shows how masterfully Fiske commands the medium. It has a surprisingly complex rhythm, which makes the story dance. It is a completely direct narrative about actually very simple, ordinary and everyday things, ... here it becomes hypnotic, fascinating and beautiful.
