Death on the Rollercoaster

Valkyrie is named after an amusement park. The park has an anniversary, and her parents are working round the clock to reopen the well-known rollercoaster Ratatosk. Valkyrie is fed up with candy floss and rides and has no intentions of trying the rollercoaster out.

In the end she does it anyway. Along with the weirdo boy Bastian who just bumps (!) down on the seat next to her. But before the train reaches the top of the hill Valkyrie gets the feeling that they are trapped.

“A book with an instant attraction... Just when you think the mystery is solved and that you have understood everything, the plot takes an unexpected turn.”

Karen Frøsland Nystøyl, Periskop.no

"A ghost story which really makes you feel the chill."

Anne Cathrine Straume, NRK.no
