Ane K. Engvik

Antarctica

Antarctica is the coldest, driest, and windiest continent on Earth. In this book, we encounter the world's largest glacier, the strongest winds on Earth, the toughest animal cubs, the southernmost volcano, and three-billion-year-old rock.

Today, the international community works together to protect this vulnerable natural environment. Discover this ice-cold continent through text and beautiful illustrations.

Ane K. Engvik

Ane Karine Engvik (born 1970) is a geologist and researcher at the Norwegian Geological Survey. She holds a PhD from the University of Oslo, where she defended her thesis on rocks formed deep in the Earth's crust at the Natural History Museum in 2000. Engvik has 25 years of experience working in Antarctica. She has participated in three research expeditions to Queen Maud Land and has been employed by the Norwegian Polar Institute from 2020 to 2022.
