The Wonder Down Under

Norwegian bestseller sold to 25 languages!

“… after Giulia Enders, I have been seeking for a book on the “V” subject for months. I couldn’t find worldwide a better way of dealing with it.” Patricia Chendi. Sonzogno di Marsilio Editori

You might have thought you knew your own genitals? Think again! In The Wonder Down Under you learn the truth about the clitoris’ inner life, the menstrual hormone dance and whether the vaginal orgasm really exists. The book helps you understand how different types of contraception work in the body, what a “normal” vagina looks like and what the clitoris really is.

The book quite simply gives women the knowledge they need to make wise choices about their sexual health.

“Dahl and Brochmann shatter myth after myth, all in language that is factual, easily understandable, engaging, uplifting and witty at the same time – this book is quite simply absolutely brilliant.” Kathleen Rani Hagen, Fædrelandsvennen
