Super Brother

An important story about losing a sibling before they're even born.

Hilmar is going to be a big brother!

He's looking forward to everything he'll do with his little sister when she finally comes out of Mommy's belly. They are definitely going to do puzzles together and have sockless dance parties. But one day, Mommy tells him that the baby's heart has stopped beating. His little sister won't be coming after all. How can you lose something you haven't even gotten yet?
