The Raggle Monster

It is late summer and evening, and Modika, Lex, and the other monsters are gathered in the living room to listen to scary stories. Suddenly the bell rings – mail is on its way! But when they pull up the mail lift, it is completely empty...

The next day, Modika, Lex, and Bulder head out on an expedition to the cloudberry marsh to pick berries. But there isn't a single berry left – someone has been there and taken them all! In the heather, Modika finds a tuft of gray-blue fur, which cannot come from any of the monster friends in Dunderly. And where has Lex gone? Suddenly he has vanished without a trace...

In this Dunderly book, Modika, Lex, and the other monsters face a problem. A huge, shaggy problem. One that burps and roars, bullies and rampages. Meet the Raggle Monster. If you dare...
