The Marvellous Misadventures of Ingrid Winter

Ingrid Winter is stuck.

In the house she is unable to sell, in PTA meetings, in work conflicts, in her fear of door-to-door salesmen, in a marriage where the spark is missing, in her own everyday anxiety. Nor does it get any better when she is chosen, unwillingly, to go to Saint Petersburg as part of a work delegation. Intended to launch a scientific research cooperation program across borders, the excursion, with Ingrid Winter's participation, soon turns to chaos, including threats of deportation to Siberia, and a cough syrup which is not what it seems.

But perhaps a dose of chaos is just what is needed when everything in your life is congealed?
