Leonard Ibsen

Leonard Ibsen

Leonard Ibsen is standing in the Jar family house, reminiscing. His dead father, his artist grandmother who broke with bourgeois conformity, his ruthless and brutal stepfather, his mother, letting him down when he needed her the most. And above all: his own betrayal against his family.

How was it that his fate was sealed? How far back will he have to go? And to what extent can he be held responsible for his choices, when the darkness of his childhood is impossible to shake off?

A novel about original sin and culture conflicts, rage and violence, *Jar* gives a shocking insight into a childhood resulting in a violent adult life. It is likely one of the most self-revealing first novels in a long time.

Leonard Ibsen

Leonard Ibsen (born 1981) lives in Oslo. Leonard Ibsen is his first novel
